

The Softer Film That's Hard To Beat

Cryovac® CT-501 is a new finesse shrink film based on the patent-pending Sealed Air **micro-layering technology** platform. This revolutionary shrink film is perfect for wrapping irregular shaped products, contouring to the package like no other film and making wrinkles and “dog ears” magically disappear.

- Extremely Strong Yet Softer Shrinking
- Easy Shrinking (Easy-to-Use)
- Performance – 50 to 60 Gauge Properties in a 30 Gauge Film
- Versatile and Forgiving across a Wide Range of Equipment

The Sustainable Solution

- Thinner and Lighter Material Provides Reduced Carbon Footprint
- Source Reduction—Replacing Materials Almost Twice its Thickness
- Lower Tunnel Temperatures
- Longer Rolls Yield Productivity Gains
- Fewer Rolls Result in Improved Transportation and Storage Costs
