

Sealed Air Shrink Packaging Division

24 Sept 2010

Dear Valued Customer,

This is to confirm that our range of polyolefin shrink films are not likely to be effected by the Registration, Evaluation and Authorization of Chemicals (REACH) regulation drafted by the European Union. Sealed Air polyolefin shrink films products does not contain any substance that would require registration since the two listed criteria are not likely to be met:

- a) The substance is present in those articles in quantities totalling over 1 tonne per producer or importer per year;
 - b) The substance is intended to be released under normal or reasonably foreseeable conditions of use.
- In addition, the Substances of Very High Concern (SVHC) listed below have not been intentionally added to Sealed Air's D940[®], Impact, D955 and Opti 200[®] and CT301[®] Polyolefin shrink films products.
